7. SCOPE OF THE WORK AND DETAILED TECHNICAL REQUIREMENTS

(A) General

Biomining of the legacy waste at West Boragaon will be done as per the rules of the Assam State Pollution Control Board and with complete adherence to the Solid Waste Management Rules 2016.

West Boragaon has an area of about 120 bighas allocated for the dumping of municipal solid waste and an approximate of 50% of the area has been piled up with solid waste from the city. The site has been used since 2006. With an average of 400 tons of waste going to the site over the last 12 years, it is expected to have more than 17 lakh tons of waste.

(B) Approach

It is proposed to start the project of legacy waste reclamation at a location where waste has been stagnant for a period of at least one year. In the 1st phase, the GMC has decided to procure single-shaft slow-running shredder for all kinds of waste (MSW, Commercial, Bulky, Wood, Landfill waste etc). The work of Supply, Installation, testing & commissioning of this single-shaft slow-running shredder shall be carried out as per the Technical specifications mentioned below.

(C) Detailed Technical Requirements

- (a) The shredder should be able to process all types of MSW and Landfill waste in a single operation
- (b) The average throughput of the Shredder should be 50 mt/hr or more.
- (c) The system should work as a Shredder and a bag opener and perform selective shredding with the tendency of no mixing/ no blending of organics and inorganics.
- (d) The shredder should have a mobility option, i.e. shredder on tracks, wheels or a hook option to enable easy movement of the shredder..
- (e) Feed Hopper with Hydraulically operated hopper walls with a minimum filling width of 4600 mm and filling depth of 2800 mm.
- (f) Hydraulic drive of shredding unit with automatic power control and adjustable drum speed during the operation. Additionally an option to preselect the the drum cycles to reverse .
- (g) The shredding drum should comprise highly wear-resistant cutting/shredding tooling with a minimum length of 3000 mm, outside diameter of minimum 1000 mm and a drum tube diameter of a minimum of 750 mm.
- (h) A single shaft shredder with mounted cutting teeth and not knives or blades.
- (i) The shredding drum should contain screwable cutting teeth (instead of knives and/ or blades), with multiple reusability and a hydraulically adjustable cutting clearance
- (j) The single shaft shredder should have an adjustable counter comb to achieve adjustable grain size.
- (k) The single shaft shredder should also come along with an overhead magnetic separator to process the Ferrous material.

(I) The equipment is to have a modern interface that gives:

- Operating mode
- All detailed equipment parameters
- Error messages
- Statistics
- GPS location
- Processing Load

The same should be supported by Windows, iOS or Android systems and offer the possibility to export the data for standard excel format for review.

The shredder should have necessary fail safe program/ sensors to avoid damages from non shreddable material

8. OTHER TERMS AND CONDITIONS OF THE CONTRACT

(A) Liquidated Damages

If the bidder fails to deliver any or all of the equipment or does not perform the Services within the time period(s) specified in the Contract, the GMC shall, without prejudice to its other remedies under the Contract, deduct from the Contract price, as liquidated damages, a sum equivalent to 1.0 percent of the price of the undelivered stores at the stipulated rate for each week or part thereof during which the delivery of such stores may be delayed subject to a maximum limit of 10 percent of the stipulated price of the stores so undelivered. Such penalty is to be deducted always by the GMC from the bill of the firm or make purchase elsewhere on the account and risk of bidder. Once the maximum of the damages above is reached, the GMC may consider termination of the Contract.

(B) Order Cancellation

The Purchaser also reserves the right to cancel the order in the event of one or more of the following circumstances

- (a) Breach by the Bidders of any of the terms and conditions of the Bid.
- (b) If the bidder goes into liquidation voluntarily or otherwise.
- (c) If it appears during the process of the project that the technical specifications required for this project are not met, the contract can be terminated on notice to be given by the GMC, However, all payments made/ payable till last completed stage shall be retained by the Bidder, but the performance security shall be forfeited.

(C) Risk Purchase

Risk purchase at the cost of supplier will be made on the failure of the supplier to make supply as per terms and conditions mentioned in the Bid documents. The difference of excess in cost thus incurred will be recovered from the supplier in a suitable manner and even from his pending bills, earnest money or security whichever is available.

(D) **Indemnity**

Bidder shall indemnify, protect and save the GMC against all claims, losses, costs damages, expenses, action suits and other proceeding, resulting from infringement of any patent, trademarks, copyrights etc. or such other statutory infringements in respects of all the hardware and equipment supplied.

(E) **Resolution of Disputes**

GMC and the bidder shall make every effort to resolve amicably, by direct informal negotiation, any disagreement or dispute arising between them in connection with the contract. If after thirty days from the commencement of such informal negotiations, the GMC and the bidder have been unable to resolve amicably a contract dispute; either party may require that the dispute be referred for resolution by formal arbitration. All questions, disputes or differences arising under and out of, or in connection with the contract, shall be referred to the Commissioner, GMC. The Arbitration and Conciliation Act, 1996, shall apply to the arbitration proceedings and the venue of the arbitration shall be the courts at Guwahati.

(F) **Force Majeure**

If either party is unable to perform any of its obligations under this Agreement because of circumstances beyond the reasonable control of the party, such as an act of God, fire, casualty, flood, war, strike, lock out, failure of public utilities, injunction or any act, exercise, assertion or requirement of any governmental authority, epidemic, destruction of production facilities, insurrection, inability to obtain labour, materials, equipment, transportation or energy sufficient to meet needs a "Force Majeure Event", the party who has been so affected shall immediately give notice to the other party and shall do everything reasonably practicable to resume performance, except that Company shall not be excused in any event from its payment obligation. Upon receipt of such notice, all obligations under this Agreement shall be immediately suspended for the period of such Force Majeure Event. If the period of non performance exceeds sixty (60) days from the receipt of notice of the Force Majeure Event, the party whose ability to perform has not been so affected may give written notice to terminate this agreement.

(G) **Legal Jurisdiction**

All legal disputes are subject to jurisdiction in the courts at Guwahati.
